

Eurick Ramiro Ospino Velasquez

Python Backend Developer — AI Integration

+58 0424 5740159 eurickramiro.ospinovelasquez@gmail.com Barquisimeto, VEN
in/eurick-o-18a75a134 github.com/MrErov Spanish, English

Professional Profile

Backend Developer and AI Engineer with experience building integrated ecosystems (ERP + LLMs). Specialized in **Python, FastAPI, and agentic AI architectures** (LangGraph, RAG). Strong background in implementing quality methodologies (TDD, SDD) applied to projects with over 1,000 automated tests. Analytical ability to integrate legacy systems (Odoo) with modern cloud services, ensuring security, multi-company isolation, and observability.

Professional Experience

Hiresprint LLC **Remote**
Backend Developer *Mar. 2026 – Jul. 2026*

- **AI-Powered Call Automation (Shuttler):** Integrated intelligent agents utilizing **GPT-4 and the ElevenLabs API** triggered by webhooks. Processed +200 calls/day, reducing phone management times by 40 %.
- **Real-Time Tracking:** Developed an asynchronous module supporting +500 concurrent connections, eliminating 30 % of support tickets related to status inquiries.
- **API Integration Architecture:** Built an automated pipeline for a mass web editor integrating data via **REST API** and JSON styles, accelerating design processes by 50 %.

Binaural **Barquisimeto, VEN**
Product Intern *Nov. 2024 – Jan. 2025*

- Development and implementation of custom drivers in **Python for Odoo v17**, integrating hardware peripherals with IoT and pos_iot modules.
- Optimization of queries and logic flows within Point of Sale (POS) and Accounting modules, managing tax logic and journal entries (move).

Granjas de Minería Alloy **Barquisimeto, VEN**
Operations Specialist *Feb. 2022 – Nov. 2022*

- Supervised cryptocurrency mining infrastructure, monitored KPIs (*Hashrate*, temperature), and optimized operational efficiency.

Backend and Automation Projects

Contafis AI Assistant **Private Repository**
AI Fiscal Assistant (RAG Agent) *Present (Oct. 2026)*

- **AI Architecture (LangGraph/FastAPI):** Developed a conversational agent with dynamic routing (Tool Calling) capable of querying real-time Odoo data and legal regulations via RAG (ChromaDB).
- **Native Odoo Integration:** Implemented a bot in the Discuss module (*mail.channel*) that intercepts messages, authenticates via user token, and responds asynchronously using webhooks.
- **Quality and Observability:** Suite of 680+ tests (Pytest) with strict TDD. Traceability of prompts and hallucinations using LangSmith.

Contafis for Odoo v19 **Public Repository**
Fiscal Compliance Module *Present (Oct. 2026)*

- **Core Python Development:** Created a module for Odoo v19 (ORM, PostgreSQL) that automates tax calendars (SENIAT), income tax (ISLR) calculations, and reconciliations.
- **Software Engineering:** Implemented 337 automated tests, *multi-company* security rules (*ir.rule*), and a CI/CD pipeline using GitHub Actions.
- *github.com/MrErov/contafis-odoo-19.0v*

Technical Skills

- **Backend & Python: Python, FastAPI**, Odoo v17/v19, Node.js, Pydantic, REST API creation and consumption.
- **AI & Agents: LangChain, LangGraph, LangSmith**, RAG (ChromaDB), LLM Integration (OpenAI, NVIDIA NIM), Prompt Engineering.

- **Methodologies: TDD (Test-Driven Development)**, SDD (Spec-Driven Development), ODD (Observation-Driven Development).
- **Systems & DevOps: Docker**, Git, GitHub Actions (CI/CD), Webhooks, n8n, Linux Administration.
- **Frontend (Full-stack):** TypeScript, JavaScript, React, Next.js.

Education

Universidad Centroccidental "Lisandro Alvarado" (UCLA) — **Barquisimeto, VEN**
Telematics Engineering (4th Semester) — *2025 – Present*

Instituto Universitario Jesús Obrero (IUJO) — **Barquisimeto, VEN**
Higher University Technician (T.S.U.) in Informatics — *2021 – 2025*

Certifications

- **CCNA: Enterprise Networking, Security, and Automation**, Cisco / IUJO (2025).
- **Linux SysAdmin in Action**: Server Management and Protection (150 hours), SellingOne (2025).

Languages

Spanish: Native **English:** Intermediate (Technical comprehension and fluent documentation).
